

# MRP

## Marble Restoration Paste

### Description

An advanced compound for all polished marble, limestone, and terrazzo. MRP™ easily removes light scratches from the surface and creates a true dazzling polish on even difficult-to-polish marble surfaces (such as green or black marble). This product works on worn marble surfaces and those that have not responded to other marble polishing compounds or crystallizers. MRP does not require the use of weighted marble equipment and in many cases reduces the need for costly diamond honing.

### Product Benefits

- Produces a high degree of light reflection
- Produces a high gloss quickly
- Removes light scratches and traffic wear easily
- Does not leave acid burns or etch surfaces

### Specifications

Appearance: White slurry

Odor: None

Flash Point (F): None to boiling (TOC)

Specific Gravity: 1.38 ± .04

Boiling Point (F): 212°

Solubility In Water: Complete

Viscosity: Not Applicable

Marble polishing performance: Superior

### Directions for Use

#### SURFACE PREPARATION

Surface must be clean and dry. On floor surfaces, make sure all waxes, floor finish or other coatings are removed. If there is a coating on the floor, use NCL ENFORCER Heavy Duty Stripper for removal. Wash floor using NCL HURRICANE Intensive Stone Cleaner to remove any remaining soil from surface.

#### APPLICATION:

You may use a conventional speed floor machine (175 RPM) with a red pad and floor squeegee. An automatic scrubber may also be used. Place **6 tablespoons (3 oz.)** product on the floor in a circle. Spray 2-3 trigger pulls of water from a spray bottle onto the Restoration Paste. Place the floor machine with a red pad onto the mixture and begin to polish in a slow, side-to-side motion.

Work an area of **approx. 9 sq. ft. in size** (0.84 square meters). Make 4 complete passes and inspect the results.

If satisfactory, move to the next area. If not make more passes. Count passes and make the same number of passes over the entire floor. Add more paste and water as needed. After polishing an area of approximately 25 square feet (2.32 square meters), rinse the polished area with HURRICANE at 1:10 to remove any slurry.

COVERAGE: 350 sq. ft. (32.5 Sq. Meters) per pound. (NOTE: Condition of floor will affect product coverage rate).

### Safety Information

**DANGER: FATAL IF SWALLOWED. KEEP OUT OF REACH OF CHILDREN.**

Avoid eye contact. Do not ingest. For eyes: flush thoroughly with water. For 15 minutes. Get medical aid.

If ingested: do not induce vomiting. Seek immediate medical attention.

**Warranty:** Determining the suitability of this product for its intended purpose shall solely be the responsibility of the user. In the event of failure, the sole obligation of National Chemical Laboratories shall be to replace the product deemed defective. User assumes all risk and liability; neither manufacturer nor seller will be held liable for any injury or damage.
